The 1 um rha02 FDK is overfiltered at nlmParam of 12.5. So we will try upto 15.

The certain porosity is : 0.128959
The uncertain porosity is : 0.022260
The certain clay is : 0.044768
The uncertain clay is : 0.005164
Total porosity excl. clay (certain+uncertain) is : 0.151219
Total porosity incl. clay (certain+uncertain+0.3*clay) is : 0.164650
Elapsed time is 1.710811 seconds.
